Integrated Library Management System

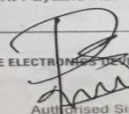

GOVERNMENT COLLEGE NEDUMANGAD

UNDER GOVERNMENT OF KERALA

NEDUMANGAD, THIRUVANANTHAPURAM, KERALA- 695541

Accredited by NAAC with 'B' Grade

INTEGRATED LIBRARY MANAGEMENT SYSTEM

The General library is automated with Integrated Library Management System which is installed in 2011 and constantly updated since then. An integrated library system also known as a library management system is an enterprise resource planning system for a library used to track items owned, orders made, bills paid and patrons who have borrowed. ILMS is a computer based system used to manage internal and external resources. LIBSOFT server version 2.1 is installed which is used for classification using DDC scheme, data imputing, subject analysis, selection of class number, assigning book number, preparing call number, data book creation, and spine label preparation Bar code technology is used for identifying the book and the subscriber. The library is fully automated with the free and open source integrated library system KOHA, that includes modules for acquisitions, circulation, cataloguing, serials management etc.The software Green Stone is used to manage digital books. CCTV cameras are installed and the entire library and its activities are visible in the monitor.

Inflibnet and other online book reference facilities are made available in the library
