Faculty Exchange

Faculty exchange programs would provide participants with the opportunity to teach or conduct research for one semester, One week or one month at an overseas university. Faculty members would benefit from exposure to a culturally varied and diverse faculty make-up, with an opportunity to exchange ideas and observe a variety of styles. The faculty exchange program is one way to take advantage of the benefits of diverse faculty. This process, however cannot take place overnight. It occurs slowly, one or two faculty members at a time. The need for a rich variety of ideas, cultures, thoughts, and styles, however, is immediate. Our faculties are working for ASAP mission Kerala to impart skill based training to the students of plus TWO and Degree.

In order to facilitate the process, Foreign universities and Indian institutions collaborated can develop plans for a faculty exchange programs. The benefit will be immediate, and students will have the opportunity to learn concepts and ideas presented in an entirely new and different manner. The faculty exchange programs present a unique opportunity for interaction between Foreign universities and Indian institutions. They will create a greater bond among the concerned institutions and will be a powerful recruitment and retention tool.

The following faculties are subjected to the faculty exchange programme of our institute. The concerned documents are attached.

Sl no	Faculty name	Institutes
1	Dr Simil Thomas	Gerogia Institute of Technology , USA
2	Dr Biju A V	ASAP, Kerala
3	Gopika G G	CDS, Kerala
4	Dr Jayasankar	KSEB, Kerala

November 2, 2018

RE: Employment Verification for Dr. Simil Thomas

To Whom It May Concern:

Dr. Simil Thomas was employed on a full-time basis as a Postdoctoral Fellow at the School of Chemistry & Biochemistry at Georgia Institute of Technology, in Atlanta, Georgia from February 10, 2017 to November 6, 2018. Dr. Thomas earned an annual salary of \$47,476.

Dr. Thomas worked under the supervision of Dr. Jean-Luc Bredas. His research duties primarily included carrying out molecular dynamics and kinetic Monte Carlo simulations related to organic field-effect transistors and organic two-dimensional networks. Please do not hesitate to contact me should you require additional information.

Sincerely,
